Beth:

Can I get you to update the disposal summary for the drum that we disposed of at US Ecology? I need this complete for my final polrep for the site.

Also, when you do the T&D report, do you detail the report? It certainly would be nice if it were in an excel format as well but I am not sure if that is standard. By detail, what I mean is:

Could you send me an example? We are now having to do very detailed cost estimates so we need the detail for the disposal report rather than just total costs for transportation and disposal. For instance, we need transportation rate (cost/hr, cost/trip, demurage charges, etc) for waste we need (cost/unit, various surcharge cost/unit, taxes, fees, etc).

Thanks
